HOW LOS ANGELES SUPER REAL ESTATE AGENTS WERE SELECTED

THE GENERAL SURVEY

In June 2004, Key Professional Media, Inc., mailed more than 42,000 ballots to *Los Angeles* magazine subscribers and asked them to nominate a top real estate professional with whom they had worked. Key Professional Media also sent a survey to more than 300 broker/managers and asked them to nominate outstanding real estate agents who are superior in sales, integrity, and market knowledge, and who are an overall asset to the Los Angeles community.

THE RESEARCH PROCESS

The Key Professional Media research department consulted with real estate experts to develop the balloting methodology and evaluation processes used in voting and research. The general survey

and research processes were designed to comprehensively identify those real estate agents who are highly regarded by consumers as well as by their professional peers. The research team identified Los Angeles real estate agents who had achieved special recognition or had demonstrated other indications of expertise and knowledge.

Balloting results were reviewed for any evidence of ballot manipulation and any such ballot was eliminated from consideration.

THE FINAL SELECTION PROCESS

The point totals from the general survey and the research process were added to arrive at a final score. The real estate agents with the highest scores were named to the list of Los Angeles Super Real Estate Agents.
